---

## ● PROFILE

Frontend developer currently shipping React and Stripe-backed features on a live dental exam-prep platform (Proxa), with five client sites delivered as a freelancer.

## ● SKILLS

- **Frontend:** React, TypeScript, JavaScript (ES6+), Redux, React Query, Material UI, HTML5, CSS3
- **Backend:** Node.js, Express, MongoDB, REST APIs, JWT Authentication, Strapi CMS
- **Tools:** Git, GitHub, Vite, WordPress (headless), Elementor

## ● EXPERIENCE

### Contract Developer

Proxa (formerly DoctorQuiz) · Remote · Aug 2025 – Present

- Contributed to Proxa, a live dental exam preparation platform for candidates sitting the UK's LDS and ORE licensing exams.
- Owned Stripe payment integration end-to-end (checkout, webhooks, error states) alongside React UI work and pre-launch QA.
- Built with React, Node.js, and SQL in a small remote team using Git-based code review.

### Freelance Full Stack Developer

Self-employed · London, UK · Jun 2024 – Present

- Built and deployed 5+ custom websites for restaurant and community clients using React and headless WordPress, with each site going live within days of project kickoff.
- Designed a reusable GraphQL-backed component architecture allowing clients to toggle features (menus, bookings, events) without code changes, cutting ongoing maintenance significantly.
- Handled full project lifecycle: client requirements, design implementation, deployment, and post-launch support.
- Clients report improved online bookings and visibility following launch.

### Retail Assistant

Sainsbury's · London, UK · Sep 2023 – Present

- Part-time role taken on after relocating to the UK, alongside self-directed learning and freelance development work from 2024.

### Business Development Executive

Lawtendo · Delhi, India · Aug 2018 – Oct 2019

- Managed client outreach, relationships, and pipeline for a legal-tech startup, developing strong communication and stakeholder management skills that now inform how I approach freelance client work.
- This role sparked my interest in technology, leading me to self-teach software development from 2019 onwards.

## ● PROJECTS

### VogueVibe: Full Stack E-Commerce Platform

[vogue.sharmakavita.uk](https://vogue.sharmakavita.uk)

- Full MERN stack clothing e-commerce app with product listing, category filtering, search, and individual product pages.
- Implemented JWT-based user authentication, shopping cart with Context API, checkout flow, order history, and a full admin dashboard for product and order management.
- Built a REST API with Node.js and Express, MongoDB for data storage, and bcrypt for secure password handling.

## ● EDUCATION

- Bachelor of Commerce with Mathematics, Delhi University (Jun 2018)
- CS50 Introduction to Computer Science, HarvardX (2019)
- CS50 Web Programming with Python & JavaScript, HarvardX (2023)
- AWS Certified Developer (in progress)
